**Subject:** Upcoming OECA training Survey  
**Attachments:** Suggested Survey Questions for upcoming OECA training\_Final.docx

Marcia,

The survey contains some possible topics that the training team has prepared to discuss during the OECA-training sessions. We have circulated it around the entire division and received feedback. You can find the feedback by clicking the following link.

<https://usepa.sharepoint.com/sites/oar/SPPD/Lists/oecaTraining/summary.aspx>

Please see below for the graphical representation of question number 1 as the share point, for some reason did not tabulate graphically.

10 (62.5%) How is a rule enforced?

8 (50%) Is there a general compliance checklist available?

13 (81.25%) How does OECA determine which source categories to target for inspection? What happens when a facility is found in violation of a regulation?

12 (75%) When is a notice of violation (NOV) issued? What steps are required to issue a NOV? How does OECA handle a permit deviation versus an emission standard violation? Who issues the NOV? When does the agency pursue a citation resulting from a NOV?

14 (87.5%) What is enforcement discretion? When is it taken? Who has the authority to issue enforcement discretion?

10 (62.5%) What role may a rule writer play, if any, in the decision-making process for issuing a NOV or exercising enforcement discretion?

Please let me know how you would like to design the training. Would it be possible to cover all these topics in a day? If not what would you recommend to put in the training? Let's talk over it sometime soon.

Regards  
Nabanita

**Subject:** Upcoming OECA training Survey

Hi John,

Attached are the survey questions for upcoming OECA training. Could you please create a link for the survey? I also would like to add the following language to the survey. Janice, please feel free to edit.

The SPPD Technical Training Team is organizing an OECA- training session for SPPD. We are inviting Marcia Mia from OECA to come down to RTP to provide this training in person. The training is scheduled to be on October 22<sup>nd</sup>, from 9AM to 4 PM. The survey contains some possible topics that the training team has prepared to discuss during the OECA-training sessions. In addition, we are looking forward to hearing your thoughts on

what you would like to learn from OECA. Please click the link below and fill out the survey to help us better design this training to be more effective and useful for SPPD rule writers.

Thanks  
Nabanita
